DETAILED ACTION

This Office Action is in response to Applicant's amendment filed on 9 February 2007.

Response to Arguments

Applicant's arguments with respect to claims 22-24 have been considered but are moot in view of the new ground(s) of rejection.

Information Disclosure Statement

The information disclosure statement filed 28 May 2004 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. It has been placed in the application file, but the information referred to therein has not been considered. This objection is referring to FR 2312264.

Oath/Declaration

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:
It does not state that the person making the oath or declaration acknowledges the duty to disclose to the Office all information known to the person to be material to patentability as defined in 37 CFR 1.56.

Art Unit: 3734

The correct statement should read: "I acknowledge the duty to disclose information which is material to patentability of this application in accordance with Title 37, Code of Federal Regulations Section 1.56."

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 22-24 are rejected under 35 U.S.C. 102(a) as being anticipated by Barbut et al. (US Patent 5,662,671).

Claim 22: Barbut'671 discloses a device that can be used for the treatment of cardiovascular diseases (column 1, lines 7-11) that contains a catheter (50) having a distal end (51) and a proximal end (column 9, line 8-12) and a lumen (see Figure 2a); an expandable and contractible vessel occluding element (69) positioned near the distal end of the catheter (see Figure 2 or Figure 21). The expandable and contractible element contains a braided element (75) and a membrane (70) contacting the braided element (see Figure 2). The expandable and contractible element has a funnel-shaped surface (Figure 2) which has a longitudinal opening in the expanded state (Figure 2).

Claim 23 and 24: Barbut'671 discloses a second expandable and contractible element (90, 91) positionable and extendable from the catheter distal end (see Figure

Art Unit: 3734

21 and column 18, lines 62 to column 19, line 12). The second expandable and contractible element is a balloon (column 18, lines 53-57).

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
